Sandblasted Mirrors

Designed to please, these mirrors not only look magnificent, but they also help light their subjects like no other mirror can.

PRODUCT INFO

Glass: Made from low-iron or mirror-quality clear glass.

Sandblasted Area: Custom (2-sides, 4-sides, various widths)

Edges: Clean Cut, Seamed, Flat Polished, or Pencil Polished

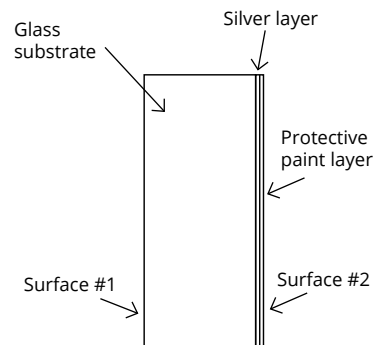

Fabrication Options: Holes, Cutouts, Notches

Max Size: 60" x 120"

Thickness: 3mm (1/8") to 6mm (1/4") for low iron mirror, or 2.5mm (3/32") to 10mm (3/8") for standard/clear glass

Note: To create this cool effect, a portion of the mirror is taped off and sandblasted, creating a matte glass look in a portion of the mirror that can be lit from behind with LED lights.

Warranty: 5 Years

Order Samples on:

Specify on:

Sandblasting is done on the back, stripping the reflective silver layer and creating a sandblasted, matte surface on Surface #2.
